BIG INNOVATION CENTRE

Launched in 2011, Big Innovation Centre exists to build a global innovation and investment hub by 2025, create great companies, and make the world more purposeful and inclusive through the enormous potential of technology, creativity and innovation.

Big Innovation Centre is a business-led innovation hub that provides thought leadership and consulting services for multinational companies and public bodies to address shared economic challenges and raise their innovative capabilities.

We specialise in convening innovation champions in companies, government and world-class universities, thinking forward about how to promote innovation and intellectual property, in particular through co-creating open innovation ecosystems and communities, and pioneer digital platforms where we see gaps and opportunities.

We propose practical reforms to our investment and innovation ecosystem in order to rebalance and grow the UK and global economy.

We create more purposeful, mission-driven organisations, which we think are a key part of the innovation landscape.

THE INNOVATORS BOARD

- We discuss and create awareness of the vision and business models it takes to succeed

INNOVATION PROMOTION

- We influence politics and public opinion by bringing innovation into the mainstream media and the public eye. www.biginnovationcentre.com/news
