Stay relevant - be on The Innovators Board

We live through an intense period of creative disruption and social movements ranging from black lives matter to the happiness movement and the cultural and political rise of the green movement. You can't ignore them!

We bring the global technology disruptors and social movers together for the first time! Join us to understand what the changes mean for building sustainable inclusive businesses, fair and just supply chains and 'people first' metrics.

At the same time acceleration in Artificial Intelligence, Blockchain and Digital Transformation is impacting every dimension of work, business, society.

1) THE INNOVATORS BOARD
Premium Membership

A Network of Peers

By becoming a member of the Big Innovation Centre, you join a peer network of business leaders and global executives of major corporations, entrepreneurs, investors, academics, politicians, and policymakers.

Thought Leadership and Insights

Thus, by exchanging industry knowledge, engaging in thought leadership, and sharing insights, the members get the opportunity to impact the financial, social, political, and regulatory future of the business landscape with digital transformation, artificial intelligence, blockchain, and other emerging technologies.

Networking and Unique Events

Besides, the members are also granted access to unique events, showcases, receptions, topic debates, evidence forums, and Big Innovation Centre's legendary annual 'Spring Party.' With themes like 'Scale-up Party', 'Global Innovation Hub Party,' and 'Back to the Future Party,' the organisation hosts fun yet informative gatherings, providing an engaging networking platform for thought leaders from the industrial and political spectrum.

An elite board for business leaders, entrepreneurs, and decision-makers.

The Innovators Board exists to provide insights to business leaders, executives, entrepreneurs, and decision-makers to (1) futureproof your knowledge and business model to help you lead in the new normal, (2) build your network, and (3) implement more purposeful societies and a better world.

The current focus of The Innovators Board is on the effect of digital transformation, technology disruption, and the social movements impacting our business models, markets and workplaces. You can also experience high-level Programmes on AI and Blockchain.

It is an elite board. Through our Membership platform Pavilion, peer networks, events, thought-leading research, publications and professional training programmes we connect our Members with the world's top innovators and influencers, to share experiences and insights around topics where we deep-dive, so helping you lead in the new normal.

3) Creative Disruption and Social Movements

Future-Facing, of The Moment, Accredited Leadership Programme

We live through an intense period of creative disruption and social movements which will inevitably impact every dimension of work, business, society, and the marketplace alike.

During covid-19 we have experienced major disruptions. Companies, schools, retailers and wider society are undergoing digital transformation at an unprecedented pace and scale, challenging all organisations in the private and public sector alike.

But at the same time, social transformation is happening outside their particular organisational contexts. Workers, teachers, children, and citizens at large are involving themselves in 'social movements' to a degree never seen before (climate change, black lives matter, women empowerment, anti-depression drugs overuse, happiness movements, COVID-unemployment, conspiracy theories, anti-globalisation, and more.)

But how should business and policy respond?

World-renowned participants and speakers confirmed

We are delighted to bring true global social movers and tech disrupters to The Innovators Board, so we can hear from their thinking first-hand.

They are from software, medicine, television, universities, policy leaders, bloggers, and management gurus, to name a few.
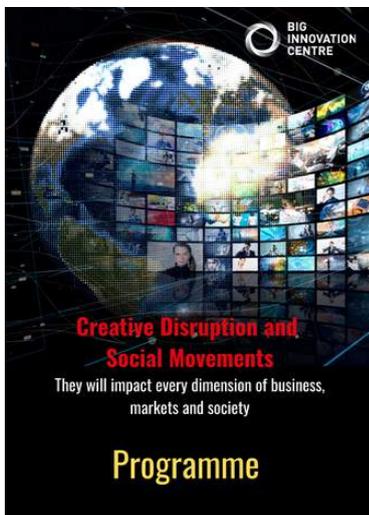

These are thought leaders who are designing our digital products which enable us at home or at work; they innovate and influence culture and happiness, and design our connected cities; they build our virtual lives – whether it's conversational AI on our 'mobiles' or in war; they influence civil rights movements on social media with hundreds of thousands of followers; deal with human delusions as a day job; live in 'hacked bodies', develop humanoid robots, push the boundaries to extend human lives, and much more."

3) Creative Disruption and Social Movements

The Innovators Board's high-level thought leadership programme (2021-2022) is designed for business leaders, entrepreneurs, policymakers and investors who want to

- connect with current global technology disruptors and social movers, in order
- better to understand the current changes facing our business environment, and
- think forward about how to navigate through an era of accelerating disruptions.

Please Consult the separate Programme on "Creative Disruption and Social Movements" Programme for full Information on dates, meetings, convenors and speaker list.

Programme

Right to participate in the "Creative Destruction and Social Movements" leadership programme.

- live webinars online
- pre-recorded
- publications

Accreditation

The Creative Disruption and Social Movements programme is accredited by the UK Continuous Professional Development (CPD) standardization body, because of its importance for business leadership, entrepreneurship, innovation and investment.

Certificate

Right to receive a CPD accredited professional certificate in "Creative Destruction and Social Movements" on condition of full participation in 3 sessions (live or pre-recorded).

Membership: APPG AI

Right to opt in (at no extra cost) as Standard Member for the All-Party Parliamentary Group on Artificial Intelligence (APPG AI)

Membership: APPG Blockchain

Right to opt in (at no extra cost) as Standard Member for the All-Party Parliamentary Group on Blockchain (APPG Blockchain)

Digital Transformation Management

Right to take (at no extra cost) a CPD accredited professional develop course on "Digital Transformation Management".

CPD is the UK Continuous Professional Development (CPD) standardization body

All-Party Parliamentary Groups (APPGs) are informal all-party groups in UK Parliament. They are run by and for Members of the Commons and Lords. Big Innovation Centre is the appointed Secretariat and research hub for the APPG AI and APPG Blockchain networks.

4) All-Party Parliamentary Group on Artificial Intelligence (APPG AI)

The APPG AI functions as the permanent authoritative voice within UK Parliament (House of Commons and House of Lords) on all AI-related matters.

The All-Party Parliamentary Group on Artificial Intelligence (APPG AI) was set up in January 2017 with the aim to explore the impact and implications of Artificial Intelligence. Special focus on policy, business and society.

We unpack the term, gather evidence to better understand it, assess its impact, and, ultimately, empower decision-makers to make policies in the sphere.
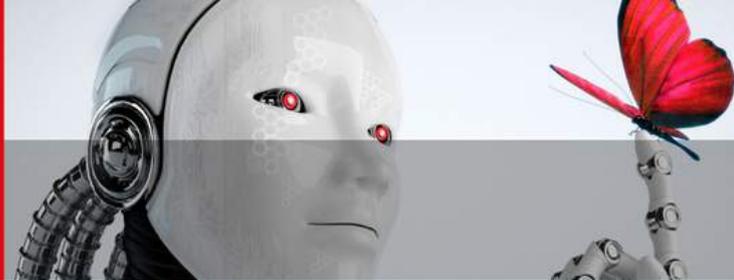

APPG AI

We bring evidence, use cases and future policy scenarios into UK Parliament to consider the economic, social, and ethical implications of developing and deploying AI.

---

1   FOCUS:
THE UNIVERSE OF AI:

Automated reasoning & decision making

Autonomous systems

Face & emotion recognition
